PMREXPO 2019

CREATING INTEGRATED SYSTEMS TO DRIVE PRODUCTIVITY, BOOST SECURITY AND ENHANCE SAFETY
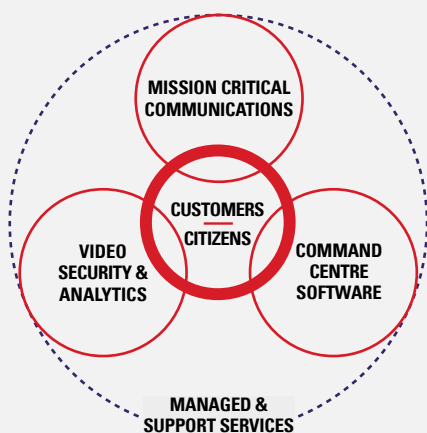

THE FIRST AND ONLY MISSION CRITICAL ECOSYSTEM FOR PUBLIC SAFETY AND ENTERPRISE

Every day, governments, businesses and individuals rely on effortless and reliable communications and security systems.

Whether responding to extreme incidents, or managing day-to-day operations, communication and video security play an increasingly critical role in protecting and connecting the world.

From mission-critical services and command centre software through to secure and reliable land mobile radio and video security and analytics solutions, our technology ecosystem can help you to advance your lifeline so businesses run smoothly and cities stay safe.

Join us on stand D14 at PMRExpo 2019, where we will be showcasing solutions from across our portfolio including two-way radios and infrastructure, broadband push-to-talk, fixed, in-car and body worn cameras, video analytics, cyber security services and control room solutions.

MISSION CRITICAL COMMUNICATIONS

CUSTOMERS = CITIZENS

VIDEO SECURITY & ANALYTICS

COMMAND CENTRE SOFTWARE

MANAGED & SUPPORT SERVICES

SOLUTIONS FOR PUBLIC SAFETY

1 MISSION CRITICAL BROADBAND PUSH-TO-TALK

Ensure your teams' group communications are instantaneous and effective. With a broad portfolio featuring Voice, Emergency/Distress, Messaging, File sharing, Video, Location, Geo-fencing, we have a solution for every organisation's needs.

DON'T MISS instant communication between smart phones and two-way radios with Critical Connect.

2 VIGILANT FACIAL RECOGNITION & ANPR*

Our facial recognition technology utilises biometric algorithms to provide industry leading solutions with existing IP cameras, and our ANPR end to end solutions use powerful analytics via a user friendly investigative platform to help equip agencies with actionable intelligence.

DON'T MISS the latest smart phone application for ANPR.

3 COMMAND CENTRE SOFTWARE SUITE

Save clicks. Save seconds. Save lives. CommandCentral helps agencies across the world work more efficiently and effectively with call handling, command and control and records and evidence management. It provides a control room solution with integrated voice and video streams for enhanced operational performance.

DON'T MISS TipSubmit web-based service that allows members of the public to anonymously share information with Police.

DON'T MISS the Connected Police Officer with incident-based automated body worn camera activation*.

4 AVIGILON VIDEO SECURITY & ANALYTICS*

Our scalable video portfolio is designed with growth in mind and empowers security teams with high performance technology including video analytics, video management software, surveillance cameras and access control solutions.

DON'T MISS AI-powered video analytics that drastically reduce analysis time.
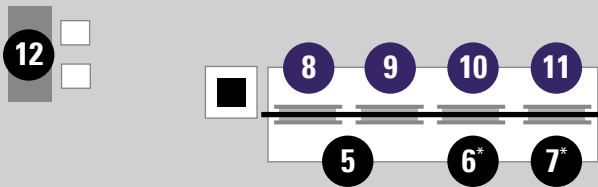

5 CYBER SECURITY

Protect critical network infrastructure from cyber threats with a multifaceted cyber-security approach to safeguard your operations. Risk assessment, updates installation, network monitoring and secure operations all contribute to protecting systems.

DON'T MISS talking to our experts about steps you can take to protect your networks.
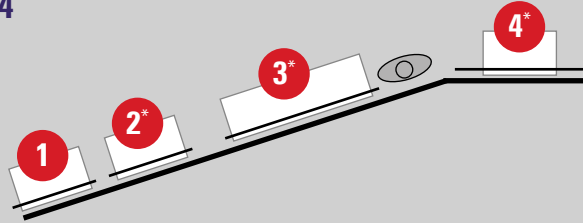

6 BODY WORN CAMERA SOLUTIONS*

Body worn cameras and video management software are an ideal complement to our radio solutions for front-line workers like security and delivery personnel.
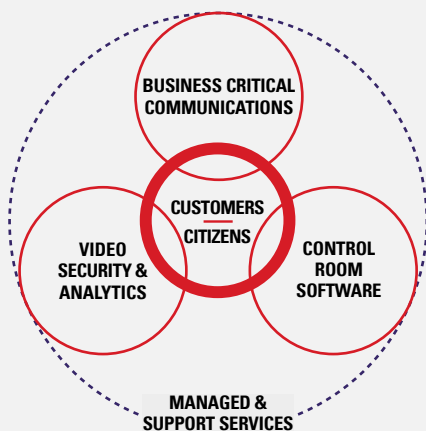

DON'T MISS VideoBadge body-worn cameras with peer-assisted recording, and the VideoManager camera management solution.

MOTOROLA SOLUTIONS
STAND D14

* Photography, video capture and facial recognition will be undertaken on the Motorola Solutions stand. Entry to the stand constitutes consent to such photography, filming and/or recording for the purpose of the demonstration taking place during the trade show, waving any right to financial compensation. See the video capture notice at the reception desk for full information.

SOLUTIONS FOR BUSINESSES

7 WATCHGUARD IN-CAR VIDEO SOLUTIONS*

WatchGuard Video camera systems and evidence management software work as one highly-integrated, synchronised system to capture the most compelling and unbiased video evidence.

DON'T MISS video evidence capture solution specifically designed for in-vehicle use.

8 DIMETRA™ EXPRESS

This flexible TETRA system is quick and easy to set up and deploy using browser-based apps and tools.

DON'T MISS our security update service includes OS patching and antivirus updates to protect your system from cybersecurity threats.

9 WAVE™ BROADBAND PUSH-TO-TALK

WAVE is a subscription-based group communication service that instantly connects your team across smartphones, tablets, radios and PCs. Users can even communicate between smartphones and our MOTOTRBO and TETRA two-way radios.

DON'T MISS the full solution - WAVE Mobile App, WAVE Dispatch and WAVE Radio TLK 100.

10 MOTOTRBO™ CAPACITY MAX

MOTOTRBO Capacity Max is a DMR Tier III compliant, scalable, highly secure trunked radio solution with powerful management tools that give you complete control from a single workstation.

DON'T MISS efficient software tools for cost effective system setup and management.

11 MOTOTRBO CONTROL ROOM SOLUTIONS

Integrated powerful voice and data communications with advanced fleet control and dispatch functionalities allow control room staff to organise teams and workflows more effectively.

DON'T MISS real-time voice calls, job ticketing plus continuous radio status and location tracking and more.

12 RECEPTION DESK

General enquiries and booth tour start point.
