

GREATER MOBILITY. RELIABLE, SECURE COMMUNICATION.

MOTOROLA MISSION CRITICAL WIRELESS FOR APX PORTABLE RADIOS

Pursuing a subject on foot. Directing traffic after a power outage. Issuing tickets while on traffic patrol. Managing crowd control in the rain. On a covert SWAT team mission. These jobs require wireless accessories that are remarkably secure, robust, easy and intuitive to use.

Motorola Mission Critical Wireless Solutions for APX™ portable radios have been specifically designed to provide first responders with enhanced security, fast, simple pairing and a fast push-to-talk that enables every word to get through.

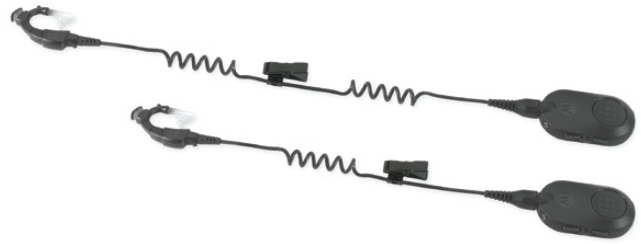

Officers can grab the Mission Critical Wireless Earpiece and securely pair to an APX portable radio by bringing the push-to-talk pod within inches of the designated spot on the radio. The earpiece is designed to perform in the most strenuous activities, yet be very comfortable to wear for long periods of time.

EVERYTHING YOU DEMAND IN WIRELESS

Motorola created an enhanced Bluetooth® wireless solution because off-the-shelf consumer Bluetooth technology lacks the performance, comfort and security features required in high-security situations and mission critical environments.

Only Motorola's Mission Critical Wireless Earpiece for APX portables will ensure that agencies and first responders have a wireless solution that meets the demands of your job.

ONLY MOTOROLA'S MISSION CRITICAL WIRELESS IS DESIGNED TO MEET THE CRITICAL CRITERIA THAT FIRST RESPONDERS DEMAND FOR SECURE AND RELIABLE WIRELESS COMMUNICATIONS

EASY, SECURE PAIRING

AGENCIES DEMAND

- Fast pairing of a wireless accessory and radio
- Accurate pairing even in a room full of wireless devices
- No hacking or interception of the wireless signals

MOTOROLA DELIVERS

- Grab-and-go pairing – takes two seconds to pair and three seconds for connection to start
- One-to-One Touch Pairing – touch earpiece to the APX portable. No need to enter codes or navigate menus
- Automatic configuration of the wireless accessory with the same profile as the radio

LOUD, CLEAR AUDIO

AGENCIES DEMAND

- Wireless audio that enables officers to hear and be heard
- Accessories that allow officers to hear noise on the scene along with his radio transmissions
- Accessible and easily adjustable volume control

MOTOROLA DELIVERS

- Clarity and excellent audio in mission critical situations
- Loud receive audio while allowing essential background sounds to be heard
- Smart, system volume control with easy to access controls

RELIABLE, ENCRYPTED VOICE COMMUNICATION

AGENCIES DEMAND

- Every word of every wireless transmission gets through
- Accessible, easy to use, push-to-talk button
- Secure audio transmissions

MOTOROLA DELIVERS

- A fast PTT that does not truncate your message
- Large PTT button and volume control that can be operated with gloved hands
- Encryption with strong 128 bit keys – messages cannot be intercepted or hacked

ALL-DAY COMFORT

AGENCIES DEMAND

- Comfortable earpiece with secure fit even when an officer is running
- Wireless that operates in most weather environments
- Long-life battery

MOTOROLA DELIVERS

- Proven lightweight and comfortable earpiece for all-day patrols
- Earpiece can be worn under helmets and hats
- Replaceable earpiece with cord available in 2 lengths
- Up to 12-hour battery life (5/5/90 duty cycle) on earpiece – many charging options

OPTION BOARD FOR MOTOROLA APX PORTABLE RADIOS

An Option Board or Expansion Board must be installed on APX Portable radios to enable the Motorola Mission Critical Wireless Earpiece as well as additional Motorola wireless devices available in the future. Visit www.motorola.com/apx for more information about the Motorola Mission Critical Wireless Earpiece.
