WHAT IS THE PSTA?

The PSTA, established by Motorola Solutions in 2022, is an information sharing and analysis organization (ISA0) that acts as a central hub for cyber threat intelligence and collaboration across the global public safety community. Its primary goal is to enhance the cybersecurity posture, defense and resilience of its members.

What Our Full Access Members Are Saying

“The PSTA has been an outstanding resource for our agency. A collection and sharing point of cybersecurity information brings focus to the efforts to show our agency the importance of good cybersecurity practices and continued investments to protect our data.”

Technical Services Manager, Texas

“Membership in the PSTA has proven to be immensely helpful for our organization. The specialized alerts, insightful intelligence products, and coordination for public safety are truly unparalleled.”

CISO, Texas

“The PSTA has provided valuable insights into the current cyber threat landscape. The expert analysis and discussion allows us to make more informed and specific decisions about our cyber posture.”

Director of Emergency Communications, Kansas
