PUBLIC SAFETY SUPPORTING PUBLIC HEALTH
COMMANDCENTRAL ANALYTICS

This is an unprecedented moment in our history. With the COVID-19 outbreak threatening our global health, frontline responders are called to act now more than ever, joining together to fight the spread of this disease. Amid this global crisis, Motorola Solutions is committed to supporting the critical communications, safety and security needs of our public safety customers.

Improve your response by enabling existing features of the technology you already own. With CommandCentral Analytics, turn data into intelligence to recognize COVID-19 activity patterns and accelerate investigations, better allocate resources to improve outcomes and efficiency.

COMMANDCENTRAL ANALYTICS

CommandCentral Analytics enables view real-time analytics such as roll call, trendcasting, heat maps, area breakdowns, COVID-19 related analysis, time of day/day of week analysis and more.
Comparison Mapping:
Quickly compare a range of time using the maps tab.

Trendcaster Mapping:
Display where areas may be increasing/decreasing in activity. Click on an identified area and understand why a trend may be occurring.

Heat Mapping:
View when there is a higher concentration of calls coming in, broken down by day of week and time of day.

OUR MISSION

Motorola Solutions builds software for mission-critical environments where every second matters. CommandCentral software suite puts your information to better use, improves safety for your teams and restores your focus on the communities you serve. Backed by a trusted, 90-year veteran with proven public safety leadership, our suite is transforming the public safety experience.
