COLLABORATION IN THE CLOUD

SHARE DATA AND CONNECT TEAMS WITH PREMIERONE® CLOUD
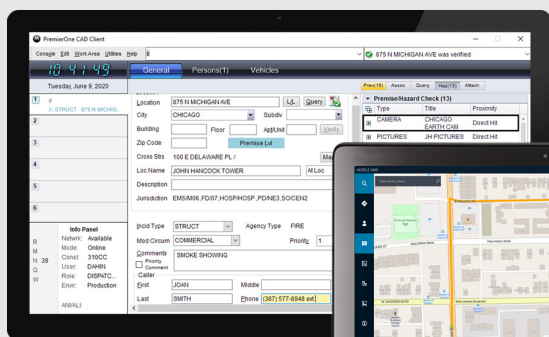

MOTOROLA SOLUTIONS

INFORMATION IS AT THE HEART OF PUBLIC SAFETY

Public safety technology is complex, leading to stagnant solutions. What if we could solve the complexity with innovation that's simple to implement and built to evolve?
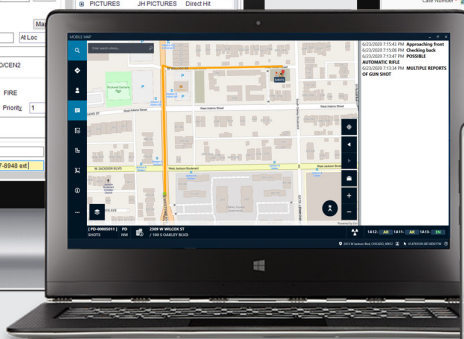

PremierOne Cloud hosts our tested and trusted Computer-Aided Dispatch (CAD), Records and Mobile solutions in the cloud and connects your teams like never before. Unifying your information in the cloud simplifies data sharing, management, and analysis. The cloud is unmatched in flexibility and security, and ensures your investment is secure for the future.

80% **OF AGENCIES ARE SHIFTING TO THE CLOUD TO GAIN AGILITY, LOWER COSTS, AND ACCESS INNOVATION SOONER.**

PROVEN AND INTEGRATED

RELY ON ROBUST TECHNOLOGY

PremierOne Cloud leverages trusted technology, tested and deployed by agencies worldwide. By integrating data and maximizing information sharing across dispatch, field and records workflows, our PremierOne Cloud suite connects your teams and improves incident outcomes.

SOLUTIONS YOU CAN TRUST

More than 1,500 agencies rely on PremierOne today. PremierOne Cloud provides the robust functionality you expect and your operations require. Combining the capabilities of PremierOne with the improved security and deployment capabilities of Microsoft Azure Government cloud augments your agency's existing operations to make you more connected, efficient and safe.

SHARED DATA

Streamline workflows between your CAD, records and mobile systems with maximum data sharing in the cloud. Ensuring information flows between CAD and Records — and making information accessible in the field — provides a more complete view of the incident, reduces duplicate data entry, and makes sure the data is correct, accessible and shareable in as few clicks as possible.

SIMPLIFIED USER EXPERIENCE

Easily control permissions and increase system security with single sign-on through Microsoft Active Directory. Users and agencies created in the PremierOne Cloud CAD database are synchronized in PremierOne Cloud Records, saving time and minimizing data reentry.

CLOUD ENABLED

INVEST WHERE IT COUNTS

Deploy easily and avoid the cost and maintenance of an on-premises system. Our PremierOne Cloud suite is supported and secured in the cloud so you can be confident your system is reliable, scalable and simple to manage.

GET UP AND RUNNING FASTER

PremierOne Cloud offers a faster deployment than traditional on-premises solutions. Not only are deployments accelerated, but your cloud technology is built to easily evolve and adopt new, innovative features through constant agile development. Adaptable technology can better meet your teams' evolving needs, on your timeline, without disrupting mission-critical performance.

BUDGET FOR YOUR NEEDS

PremierOne Cloud's predictable pricing eliminates the need for capital investments to keep technology current. The cloud gives you the flexibility to scale for additional processing power and storage as workloads change for your team. This is particularly valuable during large scale emergencies. Motorola Solutions manages the maintenance, updates and support tasks, freeing up your team's IT resources.

SECURELY MANAGE OPERATIONS

PremierOne Cloud employs the latest security and encryption measures. The system leverages cloud-native security best practices to identify and block threats, while meeting compliance requirements. PremierOne Cloud is supported by a security-first culture of world-class cyber experts to combat emerging and changing threats. You will also benefit from additional security measures such as advanced threat intelligence, real-time updates and security patching.

FUTURE PROOF

STAY AHEAD OF THE CURVE

Ensure your investment is secure and your system keeps pace as technology advances. PremierOne Cloud is powered by our CommandCentral platform, which helps you adopt new capabilities, user experiences and additional end-to-end integrations for seamless evolution into our next-generation suite.

NEW CLOUD INNOVATION BOOSTS EFFICIENCY

PremierOne Cloud goes beyond the PremierOne features you know and love, bringing you next-generation CommandCentral products and functionality as well. Unified Search provides an internet-like search across all of your agency's data. Digital evidence management solutions help centralize, store and manage incident data. CommandCentral CAD viewer allows you to make better decisions anytime, anywhere.

ENABLE GREATER COLLABORATION

PremierOne Cloud offers additional end-to-end integrations across the CommandCentral software suite. Integration with CommandCentral Capture helps officers supplement reports with audio, video and images captured in the field.. CommandCentral Community helps boost transparency and trust with the public.

With CommandCentral Analytics, you can leverage data to identify crimes, track down leads and seamlessly share insights.
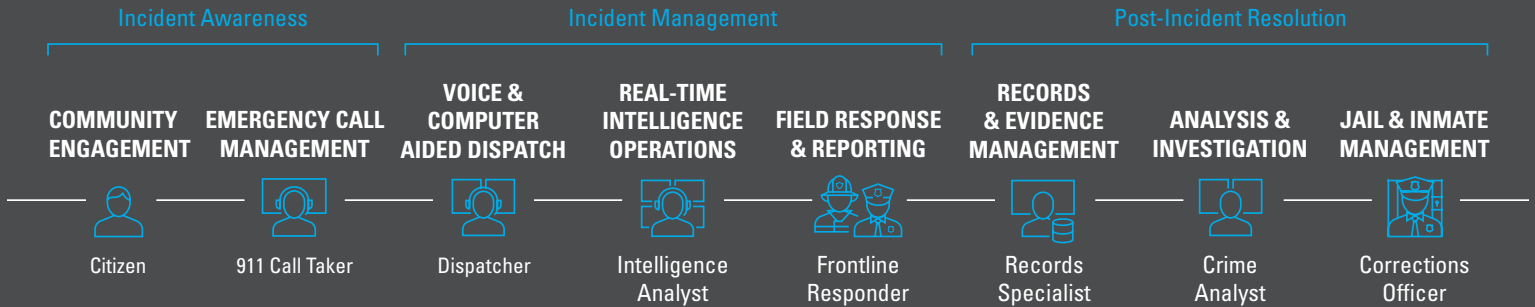

INVEST FOR THE FUTURE

PremierOne Cloud is an investment in an evergreen suite. As we develop additional next-generation cloud capabilities, you'll be able to adopt new features, user interfaces and applications without requiring a system overhaul. Like all of our command center software, the new capabilities we develop will unify your data, streamline your workflow, and help you easily adopt the features that meet your needs, on your timeline.

COMMANDCENTRAL

The industry's most integrated public safety software suite from call to case closure.

Incident Awareness		Incident Management			Post-Incident Resolution		
COMMUNITY ENGAGEMENT	**EMERGENCY CALL MANAGEMENT**	**VOICE & COMPUTER AIDED DISPATCH**	**REAL-TIME INTELLIGENCE OPERATIONS**	**FIELD RESPONSE & REPORTING**	**RECORDS & EVIDENCE MANAGEMENT**	**ANALYSIS & INVESTIGATION**	**JAIL & INMATE MANAGEMENT**
Citizen	911 Call Taker	Dispatcher	Intelligence Analyst	Frontline Responder	Records Specialist	Crime Analyst	Corrections Officer

A PARTNERSHIP FOR EVOLUTION

We build software for mission-critical environments where every second matters. PremierOne Cloud and other applications in our command center software suite unify data and streamline workflows from call to case closure in order to put your information to better use, improve safety for critical personnel and restore your focus on the communities you serve. Backed by a trusted, 90-year expert with proven public safety leadership and the industry's first and only mission-critical ecosystem, our suite is transforming the public safety experience. Combined with unified radio and broadband communications, video intelligence and analytics and world-class services, our ecosystem is the technology lifeline your mission depends on. Our mission is to never stop advancing it.
