SWIFTLY RESPOND TO AND RECOVER FROM CYBER ATTACKS

MINIMIZE COST AND DAMAGE

An attacker can hide on your network or cloud infrastructure and applications for days, months or years before being discovered. The damage inflicted between the time your systems and applications are breached and the time they're discovered can result in devastating costs and long-term harm.

AGILE APPROACH

Breaches can translate into huge financial losses, business disruptions and reputational damage accompanied by regulatory actions. Early detection of threats and quick recovery can minimize the potential impact of cyber disruptions on organizations.

Whether you want to minimize damages that result from an incident, or you're concerned that you've been breached and don't know it, the Motorola Solutions incident response team is ready to help. Our proven, methodical and evidence-driven approach will keep you in control of whatever chaos an incident may bring.

EXPERT ASSISTANCE

Recovering from persistent and sophisticated cybersecurity threats requires advanced threat hunting tools, deep knowledge of attacker tactics, techniques and procedures, along with systematic processes that can quickly scale at an enterprise level.

Our dedicated consultants coupled with best-in-class tools help quickly detect an attacker's activities and determine the impact of damage across networks and applications. They continuously monitor incidents, investigate root causes to enable swift containment, eradication and recovery.

$6T
CYBERCRIME WILL COST THE WORLD $6 TRILLION ANNUALLY BY 2021[1]

MOTOROLA SOLUTIONS

PROVEN APPROACH TO SECURITY INCIDENT MANAGEMENT

Motorola Solutions can help contain or prevent an incident by recommending and implementing safeguards. Through an array of technologies and skill sets around cloud analytics, endpoint threat hunting, log and data analytics, system forensics, malware analysis and more, we provide assistance with:

INTEGRATED RESPONSE TO CYBER ATTACKS AND DATA BREACHES

Once a breach or a cyber attack is identified, our team works with your organization to understand the situation and quickly develop an understanding of the potential systems, critical applications and data sources that may have been impacted. Our experts provide 24/7 assistance while the incident is ongoing. Well-defined communication and escalation protocols ensure that all stakeholders receive daily status updates and are aware of steps being taken to remediate the security incident. A final report of all findings and response efforts is documented.

ADVANCED THREAT HUNTING FOR SUSPICIOUS ACTIVITY

In the event you observe suspicious malicious cyber activity on our systems, you can contact us. Our team will work with you to understand your network and cloud environments, collect artifacts and provide 45 days of in-depth security monitoring. We deploy advanced threat hunting tools suitable for your organization. A final report of all findings and recommendations is documented.

POST-INCIDENT ANALYSIS AND SYSTEM RECOVERY

Post the security breach, we work with you to perform a deep-dive analysis and compromise assessment in order to scope out system vulnerabilities that might have been exposed. This enables us to recommend and develop stronger application and network security controls as we partner with you to reinstate your system. Data insights also drive the implementation of preventive measures and problem management.

MOTOROLA SOLUTIONS - YOUR TRUSTED PARTNER

As a leading provider of mission-critical solutions, we understand your mission can only be as secure as your partners enable you to be. Our goal is to provide you with transparency, accountability and security that's built-in from the start.

We believe that our set of highly knowledgeable people with industry certifications, best-in-class organizational policies and procedures and state-of-the-art automation and analytics tools enables us to uniquely deliver enhanced cybersecurity solutions that address your needs today and in the future.

SECURITY EVENTS PROACTIVELY MONITORED EACH DAY

100%
CO-MANAGED APPROACH FOR VISIBILITY AND CONTROL

20+
YEARS OF EXPERIENCE DEVELOPING CYBERSECURITY SOLUTIONS

ORLEANS PARISH COMMUNICATION DISTRICT AND MOTOROLA SOLUTIONS RESPOND TO CYBER ATTACK.

"The unknown excites me. I can have a day scheduled but at any moment, it's over, that schedule is out the window. An incident happens - I need to have backup plans. I thrive in that unknown, that thinking on your feet, making quick decisions. [After the attack, Motorola] offered their support in any way. They were here on the ground with us, getting things back up and running."

Tyrell T. (Tyrell Lashley) Morris
Executive Director
Orleans Parish
Communication District
