OFFICE 365 SECURITY FOR ENTERPRISE IT

24/7 MONITORING AND PROTECTION

Figuring out the best options for Microsoft Office 365 security can be complex, but it doesn't have to be. Motorola Solutions advanced security platform, ActiveEye^{SM}, gives you the visibility you need. It offers easy-to-understand, actionable insights and 24/7 monitoring from our team of experts. And our fast and simple API integration approach can have you up and running in minutes.

INCREASED VISIBILITY

Office 365 offers many integrated security features. There are so many, in fact, that security teams often struggle to understand what is available and how to use them. Even when features like identity management, malware protection and data loss prevention are enabled, it's hard to know how effective they are or what they may be missing.

ActiveEye interfaces directly with Microsoft's native security capabilities through APIs to capture detailed information about Office 365 activity.

Our advanced cybersecurity platform uses machine learning to analyze detailed security event information, identifying the events and threats that truly matter. That intelligence is then fed into our 24/7 SOC for real time threat analysis and remediation. ActiveEye gives you the insights and tools you need to proactively manage Office 365 security and compliance, and to protect sensitive data. It combines the latest machine learning technologies with expert, 24/7 human analysis.

FEATURES

- Automated Threat Detection with Machine Learning
- 24/7 SOC for Real-Time Threat Analysis and Remediation
- Unified Interface for Multi-Cloud and On-Premise Security
- Integrated Threat Intelligence and Reputation Data
- Flexible Notifications, including PagerDuty and Slack Integration
- Long-Term Security Event Data Retention
- PCI and HIPAA Compliant

COST EFFECTIVE
Cloud-enabled protection eliminates the need for additional cloud infrastructure, or on-premise hardware and software solutions.

FAST DEPLOYMENT
Get up and running quickly and easily with ActiveEye's simple, API-based integration with Microsoft Office 365 security features.

IMMEDIATE RESULTS
Get visibility and insight into Office 365 activity from day one with unmatched detection, monitoring and reporting.

MOTOROLA *SOLUTIONS*

INTEGRATE WITH OFFICE 365 SECURITY FEATURES

Our security platform interfaces directly with native security capabilities through APIs to collect and analyze detailed security event information, identifying the events and threats that truly matter.

MONITOR OFFICE 365 ACCOUNT SECURITY

Motorola Solutions monitors Office 365 user account security events in real time to detect possible account attacks and abuse.

DETECT OFFICE 365 USAGE ANOMALIES

Behavioral profiling technology monitors Office 365 usage in real time, identifying changes in user behavior so you can investigate and respond to potential problems quickly.

STRENGTHEN OFFICE 365 COMPLIANCE READINESS

Our ActiveEye security platform has compliance reports that map to organizational or industry compliance requirements, or general-purpose frameworks and benchmarks.

UNIFY YOUR CLOUD SECURITY APPROACH

We offer a unified model for implementing security across multiple cloud providers, bringing both simplicity and greater security effectiveness.

UNLOCK NEW VALUE FROM YOUR EXISTING SECURITY TOOLS

In addition to Office 365, Motorola Solutions gives you visibility into other cloud environments, along with your network and endpoints, for a unified view without added complexity.
