USE CASE
PERIMETER BREACH
Safe Hospitals

Operational View

DETECT
LICENSE PLATE RECOGNIZED
An employee's ex-spouse with a history of violence detected entering hospital grounds using license plate recognition.

ANALYZE
APPEARANCE DETECTED
Using a watch list, the intruder is automatically located approaching the school and identified as the ex-spouse. Security receives a notification every time the intruder comes into view of a camera to monitor their movements.

COMMUNICATE
NOTIFICATION COMMUNICATED
Alert automatically sent across security teams and nearest security resources dispatched with location and images of an unwelcome individual.
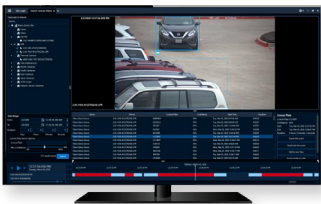

RESPOND
FIRST RESPONSE DISPATCHED AND INCIDENT DOCUMENTED
Local police directly alerted with video for situational awareness and incident logged with relevant data.
