

USE CASE PROPPED DOOR/LOITERING

Safe Manufacturing

Operational View

DETECT

PROPPED DOOR ALERT

Alert sent to security about a door propped open in restricted area outside the facility.

ANALYZE

LOITERING ALERT

Security alerted to group of individuals loitering outside propped door entrance.

COMMUNICATE

NOTIFICATION COMMUNICATED

After initial alerts, image and location of the individuals are sent to field security teams to disperse the crowd and secure the door.

RESPOND

CORRECTIVE ACTION TAKEN

Security locates the loiterers, seasonal employees taking a smoking break. The supervisor corrects action and an incident is logged with relevant data allowing for further training and analysis.
