- # Rule 13q-1 under the Securities Exchange Act (17 CFR 240.13q-1) for the fiscal year ended .
-

Introduction:

Motorola Solutions (which may be referred to as Motorola Solutions, the Company, we, us, or our) is solving for safer. Every day we come to work solving for safer communities, safer schools, safer hospitals, safer businesses, safer everywhere. We are a global leader in public safety and enterprise security, grounded in nearly 100 years of close customer and community collaboration. We design and advance technology for more than 100,000 public safety and enterprise customers in over 100 countries. We are driven by our commitment to help make everywhere safer for all.

We are building an ecosystem of safety and security technologies that helps protect people, property and places, which include Land Mobile Radio Communications (LMR or LMR Communications), Video Security and Access Control (Video) and Command Center. Across all three technologies, we offer cloud-based and hybrid solutions, cybersecurity services, software and subscriptions services as well as managed and support services.

We are connecting public safety agencies and enterprises to enable the collaboration that is critical for a proactive approach to safety and security. In addition to our support of police, fire and other emergency responders, we have a growing base of enterprise customers, such as schools, hospitals and stadiums. We support the intersection of public, private and people, connecting those in need with those who can help.

We are incorporated under the laws of the State of Delaware as the successor to an Illinois corporation, Motorola, Inc., organized in 1928. We changed our name from Motorola, Inc. to Motorola Solutions, Inc. on January 4, 2011. Our principal executive offices are located at 500 West Monroe Street, Chicago, Illinois 60661.

We manage our business organizationally through two segments: Products and Systems Integration and Software and Services. Within these segments, we have principal product lines that also follow our three major technologies:

LMR Communications: Infrastructure, devices (two-way radio and broadband, including both for public safety and professional and commercial radio) and software that enable communications, inclusive of installation and integration, backed by services, to assure availability, security and resiliency;

Video: Cameras (fixed, body-worn, in-vehicle), access control, infrastructure, video management, software and artificial intelligence-enabled analytics that help enable visibility and bring attention to what's important; and

Command Center: Command center solutions and software applications that unify voice, video, data and analytics from public safety agencies, enterprises and the community to create a broad informational view to help simplify workflows and improve the accuracy and speed of decisions.

We have invested across these three technologies organically and through acquisitions to evolve our LMR focus and expand our safety and security products and services.

Section 1 Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report.

The Company is concerned about the social and environmental conditions that have been observed in some mines that supply metals known as conflict minerals, as defined in Form SD, which currently consist of the following metals: columbite-tantalite (coltan), cassiterite, gold, wolframite, or their derivatives, which are limited to tantalum, tin and tungsten. The longstanding civil war in the eastern provinces of the Democratic Republic of Congo (DRC) has impacted many mines that supply conflict minerals. Together with our peers, we are working to support the development and implementation of a tracking and validation system to ensure conflict minerals that originate in the DRC come from responsible mines and other sources free from association with armed conflict. For more information on our program and to view our Supplier Code of Conduct, please visit our website at www.motorolasolutions.com, select About Us and then select Environmental, Social & Corporate Governance and Supply Chain. The information contained in or accessible through our website is not a part of this Form SD and is not deemed incorporated by reference into this Form SD or any other public filing made with the Securities and Exchange Commission (the SEC).

Motorola Solutions has concluded in good faith that during 2023:

- a) Motorola Solutions manufactured and contracted to manufacture products as to which conflict minerals are necessary to the functionality or production of such products; and
- b) Based on a reasonable country of origin inquiry (RCOI), Motorola Solutions has reason to believe that a portion of its necessary conflict minerals originated or may have originated in the DRC or an adjoining country (collectively referred to as the Covered Countries) and has reason to believe that those necessary conflict minerals may not be from recycled or scrap sources.

Motorola Solutions RCOI employed a combination of measures to determine whether the necessary conflict minerals in Motorola Solutions products originated from the Covered Countries. Motorola Solutions primary means of determining

country of origin of necessary conflict minerals was by conducting a supply chain survey with direct suppliers using the Responsible Minerals Initiative (RMI) Conflict Minerals Reporting Template (CMRT). Motorola Solutions used the smelter information from the CMRT and the various smelters country of origin information provided through our membership to the RMI to determine the country of origin of material that may be in our products.

Conflict Minerals Disclosure

In accordance with Rule 13p-1 under the Securities Exchange Act of 1934, as amended, Motorola Solutions has filed this Specialized Disclosure Report on Form SD, including the Exhibit 1.01 Conflict Minerals Report, which report is also available on the Company's website at (<https://www.motorolasolutions.com/investors.html>).

Item 1.02 Exhibit.

The Conflict Minerals Report of Motorola Solutions for the period of January 1 to December 31, 2023 is attached to this report as Exhibit 1.01.

Forward-Looking Statements

This Specialized Disclosure Report on Form SD, including the Conflict Minerals Report attached hereto as Exhibit 1.01, contains forward-looking statements that are based on the current expectations of Motorola Solutions and beliefs concerning future events impacting Motorola Solutions. We can give no assurance that any future events discussed in these statements will be achieved. Any forward-looking statements represent our views only as of today and should not be relied upon as representing our views as of any subsequent date. We undertake no obligation to publicly update such forward-looking statements. Forward-looking statements are subject to a variety of risks and uncertainties that could cause our actual results to differ materially from the statements contained herein. These risks and uncertainties may include, but are not limited to, our customers requirements to use certain suppliers, our suppliers responsiveness and cooperation with our due diligence efforts, the continued implementation of satisfactory traceability and other compliance measures taken by our suppliers on a timely basis or at all, errors or omissions by suppliers or smelters, our ability to implement improvements in our conflict minerals program, our ability to identify and mitigate related risks in our supply chain, and political and regulatory developments (whether in the DRC, the United States or elsewhere). For a discussion of certain additional risks, uncertainties and factors that may cause our actual results to differ materially from those expressed or implied in the forward-looking statements, refer to Part I, Item 1A, Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2023, and in other sections of such Form 10-K and our reports on Forms 10-Q and 8-K filed with or furnished to the SEC from time to time.

Section 2 Resource Extraction Issuer Disclosure

Item 2.01 Resource Extraction Issuer Disclosure and Report.

Not applicable.

Section 3 Exhibits

Item 3.01 Exhibits.

Exhibit 1.01 Conflict Minerals Report of Motorola Solutions, Inc. for the period January 1 to December 31, 2023.
